Subject: Dimock site additional water tanks

Rich,

The remaining tanks have been installed at the houses and there now is 1000 gallons of potable water at each of the locations.

The relocation at  went well this morning and the wife thanked us for moving the tank.

I have been verbally telling the residents that we are going to a schedule of having the potable water tank truck fill the tanks on a Monday, Wednesday & Friday schedule as we have been installing the tanks and I told them again today as we were filling the tanks with Potable water after the installations.

Questions or comments please contact me.
